Other than that we also use the Avanti, King Air, etc.

ABOUT ESPRO MEDICAL

Espro Medical a medical evacuation and air ambulance services company. We've been doing a lot of international transfer, both domestic and overseas (Singapore, Malaysia, China, India, Perth, etc).

Espro Medical transfer patients in the normal situation or a coma, from the place of origin to the destination. Start from the most difficult circumstances come to be the easiest one. In an emergency, we will transfer your loved one to another medical institution, domestic or foreign. Evacuation process is done by using ambulance transportation, commercial aircraft or charter (Jet) and the helicopter. In the evacuation process we have a professional medical team consisting of doctors and nurses anesthesia already experienced. Within each medical evacuation team shall carry medical equipment, drugs, oxygen, ventilators and other medical devices.

Today, a dedicated team concentrates on offering the very best and demand for – top class evacuation services using air ambulance, Espro Medical is your best choices.

As a result of its experience, expertise and efficiency, Espro medical has become the preferred choice of insurance companies, hospitals, doctors and medical clinic.
